5. Audio dubbing
 - (a) from other tape
 - (b) with mike
 - (c) exact spot dubbing
6. Video dubbing
 - (a) from other tape
 - (b) with camera
7. Recording from TV
8. Use of "Pause" control
9. Use of "Slow Motion" control
10. Use of counting meter
 - (a) to help find edit spot
 - (b) to time tape for cablecasting
11. AGC and manual control
12. Announcements
13. Summary
14. Edit sign-up board

The most helpful thing for the student is to participate. This should not be taught as a demonstration class, but as a lead thru class.
